

## **CLEANING - Ceramic Glass**

---

### **Ceramic Glass Cooktop Cleaning Instructions**

All stain or deposit on the cook-top surface must be cleaned off quickly once the cook-top has cooled down, before re-using the cook-top

**Exception:** In the case of sugar deposits, remove all residues before the cook-top cools down (*Be careful not to burn yourself!*)

**Important:** Only use cleaning products that have been specifically designed for glass ceramic cook-tops.

If the deposit is minimal, simply wipe off with a dry cloth.

If the deposit is more prominent, clean off with a moist, soapy sponge and rinse off.

If the deposit does not clean off easily, use a **non-abrasive** scratch pad and a specially adapted glass-ceramic cleaning product.

If the deposit does not clean off with any of the above mentioned methods, use a razor blade scraper, specially designed for glass ceramic cook-tops.

Having successfully cleaned the cook-top, apply a glass ceramic cook-top conditioner which will protect the cook-top surface against any future stains, with a dry cloth or equivalent.
